\*\*Using nouns with personal numerals (from page 1)

**Personal numerals require nouns to be in the plural genitive form.**

1. If the plural is formed in the nominative through slenderization (inserting an i after the last broad vowel), then use the nominative singular form.
2. If the plural is formed in the nominative by adding a suffix, use the nominative plural form.
3. Lenite the noun if possible.

**Alternate format for cardinal numbers (old system)**

21 aon air fhichead  
 22 dhà air fhichead  
 23 trì air fhichead  
 etc.

**Other Notes**
